

Greater Hartford Campus

Coat & Winter Wear Drive

Winter is an especially harsh time for low income and homeless people, and particularly now, with the recession and high prices, many people will be forced to choose between heating, food and clothing.

We are asking the entire campus community to come together and donate any gently used unwanted coats, gloves and scarves.

4,154 individuals are homeless in the state of Connecticut.

Over **800** of them are children.

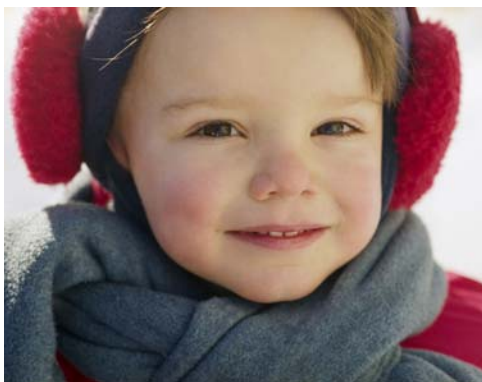

11% are single adults who served in the military.

Suburban and Rural homelessness saw a dramatic increase from 2008 (esp. families and children in families)

up 33%.
